Preface

With pleasure this the Second edition of Henderson's City of Regina Directory is presented to our patrons The continuous and healthy growth of this beautiful city is a source of gratification and we have faithfully chronicled this prosperity in this volume.

This volume represents more fully and clearly than any other medium the development of the city. This fact has appealed to the business community and we have added to the list of our patrons considerably, the business public appreciating a city directory distinct from any other publication. This enables us to present a good sized volume with fine typographical appearance. We heartily thank our patrons for their appreciation and have shown this by the pains we have taken for accuracy and completeness of information.

We are, yours sincerely

HENDERSON DIRECTORIES, LIMITED

Regina, Sask., June, 1909.

5529

Don't Lend Your DIRECTORY!

The patrons of our Directory are frequently inconvenienced by

BORROWERS;

not the stranger or private citizen, who steps in, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are TOO MEAN to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks unless you send for it before.

These same borrowers tell our Canvassers that they have no use for a Directory.

City of Regina

Regina is situated on the main line of the C. P. R. 356 miles west of Winnipeg. As capital of the Province of Saskatchewan it is the seat of government where the Legislative Assembly meets, and all Departmental and Executive offices are located, the headquarters of the Royal North West Mounted Police and the seat of the Supreme Court.

The main line of the C. P. R. bisects the city. It is also the terminus of the same Company's line from Arcola, which is continued through to Brandon, a line tapping a very rich and well settled country to the south-east. This is the longest piece of straight railroad on the continent, in fact there is only one longer stretch in the Western Hemisphere, running for ninety-six miles from Regina to a point south of Stoughton in an absolutely straight line.

The C. P. R. has also under course of construction a line running in a northerly direction from Regina to connect with their Pheasant Hills line at or near Bulyea. It is expected that this will be completed early in the present season. This not only gives easy access to Last Mountain Lake, a beautiful lake some sixty miles long the foot of which is distant only twenty-five miles from Regina and will undoubtedly become a very popular summer resort for the citizens of Regina, but will also give Regina access to an exceedingly productive country which will largely increase the business done by our wholesale houses.

Regina is the southern terminus of the C. N. R. Co.'s line from Prince Albert, and also the terminus of the same Company's line from Brandon, which line being continued through to the Great Lakes gives Regina the benefit of a competitive road through to the head of navigation.

The Grand Trunk Pacific Branch Lines Co. hold a charter for a line running from Regina to Melville a divisional point on the main line of the G. T. P. Ry., some ninety miles north-east of Regina. This line will also be continued to Yorkton. This line is one of those for the construction of which the bonds of the Company were guaranteed by the provincial government at the last session, and work will be commenced at once and it is hoped will be completed by the fall of the present year. As soon as this line is completed work will be commenced on the same Company's line in a south-easterly direction, for which the charter reads "In a south-easterly direction from Regina to a point on the International Boundry at or nearNorth Portal. The same Company also have charter for a line from Brandon to Regina, about midway between the main line of the C. P. R. and the C. N. R. Brandon-Regina line.

There is no doubt that in the near future the Great Northern will build into Regina, either from the South, or from Sherwood in North Dakota. This latter would tap an extremely fertile country all the way and present very slight engineering difficulties, probably passing through Alameda or Oxbow to Arcola, thence skirting the Moose Mountains and entering Regina from the south-east.

Regina to-day has more railroad lines tributary to her and well settled than any other city in the province. Regina will have in the next year or two more lines entering the city than any other city in Saskatchewan. There is no other city in the province in fact in the West to-day, that has such bright prospects as Regina in-as-far as new lines opening up rich territory are concerned.

Regina is the centre of the most famous wheat growing district of the province. The country in all directions is level prairie, with the exception of a district some nine or ten miles distant in a north-easterly direction where the land is somewhat rolling and there is a small growth of poplar trees. Taking a square block in the south-east of the province 264 miles each way, of which Regina is as nearly as possible the centre, we find that over 85% of the total grain production of the whole province comes from this area. The actual acreage under cultivation in this block in 1908 was 525,085 acres, and from the whole of the rest of the province the total acreage under cultivation was 721,444 acres. The total production from the district 264 miles square of which Regina is the centre was

Wheat	45,727,294 bushels
Oats	42,011,946 bushels
Barley	3,197,621 bushels
Flax	2,197,621 bushels

Thus Regina is the centre of the greatest production of the Province.

Regina is also the centre of population of the province.

The largest volume of business done from Regina is that done by dealers in agricultural implements, threshers and engines. In one year the volume of business in this line alone amounts to over five million dollars. Some twenty-five firms are represented here including practically every firm in Canada and a large number from the States. Two very enterprising American firms in the Nichols and Shephard Co., and the Reeves Company have made Regina their headquarters for the three prairie provinces. Nearly all the firms represented have erected large and commodious warehouses.

Wholesale houses in other lines are well represented including wholesale grocery, fruits, stoves, scales and cream separators, hardware, furniture and other lines.

As an indication of the volume of business done, the amount of the railway traffic receipts in one year total close on $2,500,000.

A large number of industrial concerns are located here, including brick yards, iron foundry, sash and door factories abattoir and cold storage, soap factory, brewery, cigar factory, printing and bookbinding concerns, manufacturers of fanning mills and other agricultural machinery.

The business men of Regina have shown their faith in the city in the substantial class of business blocks they have erected, and are continuing to erect.

The type of residence which has been built throughout the residential portion of the city is another sure sign of the faith which the citizens of Regina have in the stability of their city.

The rapid increase in the gross postal revenue of the Regina Office is one of the most striking indications of the city's growth and development. In 1906 for the fiscal year ending June 30th the gross postal revenue for the year was $37,510.00. In 1907 for the nine months ending March 31st the total was $35,925.25, and for the fiscal year ending March 31st 1908 the total was $61,000.04. In the three prairie provinces this amount is only exceeded at Winnipeg and Calgary and in the whole Dominion by twelve cities. There is no doubt that the figures for the year ending March 31st, 1909, will place Regina in a still higher position.

Regina is the centre of the Provincial Government's long distance system, lines now being under construction from Regina to Saskatoon to the north and from Regina to Antler to the south-east. The provincial Government has recently purchased the entire Bell Telephone system in Saskatchewan. The Saskatchewan Telephone Company operate the long distance line into Regina, giving connection with Moose Jaw and all Soo line points on the west This will also be incorporated as part of the governmen. system.

Since the division of the North West Territories into the Provinces of Saskatchewan and Alberta the judicial situation has been changed, and where formerly the Judges of the Supreme Court were distributed throughout the province and with the exception of the hearing of appeals practically confined their duties to their own judicial centre, they have now all been moved to the city of Regina, where they reside. Chambers are held daily.

The only Court of Appeal in the Province is held in the city of Regina, and at this court all the appeals which are taken from any of the cases, tried either at Regina or on circuit, are heard at the sittings of the Court En Banc.

The fact that all the supreme court judges reside in Regina, the court of appeal sitting here, naturally gives rise to the necessity of a complete law library, and for some years the only real library of this description has been in Regina. This has been increased from year to year both as to reports and text books until it now stands as a comprehensive library, sufficient for all the purposes both of trial and appeal courts, and is the only complete library of this description in the province.

The Department of Education is located in Regina.

The Educational Council of the Province meets here.

The Provincial Normal School is maintained here by the Government.

The annual examination and marking of papers is done here.

Regina organized the first collegiate institute in the province and is now erecting a building at a cost, including site and equipment, of over $130,000. The attendance in the Regina Collegiate is now one hundred and twenty-eight, compared with ninety-five in 1907, sixty-seven in 1906, and forty-nine in 1905.

Regina maintains four public schools, the Victoria, ten rooms; Alexandra, six rooms; Albert, eight rooms; Earl Grey, eight rooms. The number of pupils enrolled has increased from five hundred and forty in 1904 to 1,220 in 1908. The number of teachers from nine in 1904 to twenty-seven and two specials with Superintendent in 1908.

In addition Regina maintains a separate school, organized in 1899 with one teacher and forty pupils, now employing five teachers with an enrollment of over three hundred pupils.

Regina has an unlimited supply of the very purest water. The original scheme as outlined by the Engineers called for the construction of a reservoir in Boggy Creek, a distance of about eight miles from the city. In running the pipe line from the city however a large number of springs were struck and from these a plentiful supply of the purest water has been obtained. The reservoir has a capacity of over 100 million gallons and a gravitation of 85 feet from the reservoir to the power house basin. There are two compensating basins about three miles from the reservoir, having a capacity of 1,065,000 gallons and two storage basins at the power house in the city, having a capacity of 650,000 gallons, with steam pump attached to each for maintaining the pressure at the tops of the highest buildings as well as for increasing the pressure in case of fire.

The sewerage system of the city consists at present of eighteen miles of sewer main with 850 connections. The total capital expenditure on the system up to date is $301,534.96. No buildings are allowed to be erected within the limits of the water and sewer main without water and sewer connections, whilst those already built have had to comply with the health by-law requiring such connections to be made.

Regina is the best paved city in the west for its size, if not in the Dominion, having five miles of pavement with twice as many miles of granolithic sidewalks. Being a young city it has had the advantage of the experience of older cities. At the same time it has not confined itself to one kind of pavement but adopted three of the very best kinds, namely creosote wood block, bitulithic and asphalt block. The streets are well looked after by the sanitary department and the citizens are justly proud of their cleanliness.

Regina is very fortunate in possessing two hundred and fifty acres of park lands. In the centre of the city Victoria Park is being artistically laid out with trees, shrubs, flower beds, walks and a fountain. In the south side of the city Wascana Park is also being laid out with shrubs and trees, whilst a carriage drive about two miles long winds round it with numerous walks branching off. Being situated on the banks of the lake a concrete swimming pool with dressing rooms attached is being constructed there, as well as a landing wharf for pleasure boats. In different parts of the city grounds have been laid out for cricket, football, baseball, lacrosse and tennis; whilst the city has about two hundred acres on the north side dedicated to park and recreation purposes. The exhibition grounds comprise about seventy-six and one half acres, and contain a racing track, an exhibition building, an amphitheatre for exhibiting horses and cattle and ten large stables, making in all one of the very best equipped live stock exhibition grounds in the Dominion.

Its municipal public buildings would do credit to any city ten times its size. These have all been constructed without cost to the citizens out of the proceeds of the sale of their townsite lands. The city hall comprises all the municipal departments, including the police and police court, costing with equipment about $200,000. Its central fire hall is one of the most complete in the Dominion, costing with its new fire alarm system about $30,000. Its incinerator plant cost $40,500.00 and is one of the most modern scientific systems for disposing of garbage. Other public buildings have been erected free of cost to the citizens, and the city yet posseses an asset in its unsold city property of close upon $1,000,000.

As regards electrical energy Regina owns and operates its own electric plant. It started its own works in 1904 and supplied electricity for domestic use at 20c. per thousand kilowatt hours and has gradually reduced it to nine cents for domestic purposes and 7 cents for power purposes.

Regina is a city of beautiful churches, amongst which special mention must be made of the Metropolitan Methodist church, the Knox (Presbyterian) church, St. Pauls (Anglican) and St. Mary's Roman Catholic.

The Y. M. C. A. Building situated on the corner of Cornwall street and Twelfth Avenue is an institution that is proving of enormous benefit to the young men of the city.

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN.

Lieutenant- Governor—His Honor Amedee Emanuel Forget, Alfred William Joseph Bourget private secretary.

Executive Council

Hon Walter Scott, president of Council and Commissioner of Public Works.

Hon. Alphonse Turgeon, Attorney-General.

GOVERNMENT OF THE CITY OF REGINA.

Mayors of the City of Regina.

From the date of its incorporation as a town in the year 1883, and as a City on June 19th., 1903, down to the present year 1909.

1884—D. L. Scott, Q.C.
1885—D. L. Scott, Q. C.
1886—Dan Mowat.
1887—Dan Mowat.
1888—W. Cayley Hamilton, Q. C.
1889—J. W. Smith.
1890—J. A. McCaul.
1891—R.H. Williams.
1892—R. H. Williams.
1893—J. H. C. Willoughby, M.D.
1894—Robert Martin.
1895—G. T. Marsh.
1896—W. F. Eddy.
1897—F. N. Darke.
1898—F. N. Darke.
1899—J. K. McInnis.
1900—W. T. Mollard.
1901—W. T. Mollard.
1902—J. W. Smith.
1903—J. W. Smith.
1904—H. W.Laird.
1905—H. W. Laird.
1906—P. McAra Jr.
1907—J. W. Smith.
1908—J. W. Smith .
1909—R. H. Williams.

Council.

Council meets 1st & 3rd Tuesday.

Mayor—R. H. Williams.

Aldermen—L. L. Kramer, F. X. Kusch, Robert Martin, M.D., A.D. Wright, Franke Darke, L. T. McDonald, J. R. Peverett, Thos. H. Wilkinson, J. H. Halleran and Robert Sinton.

Standing Committees of Council for 1909.

Finance—Ald. Peverett, chairman; Ald. McDonald, vice-chairman; Ald. Kramer, Ald. Wright, Ald. Darke.
Meets on Fridays at 7.30 p.m.

Works—Ald. Sinton, chairman; Ald. Peverett vice-chairman; Ald. McDonaid, Ald. Kusch, Ald. Halleran.
Meets on Thursdays at 7.30 p.m.

Markets—Ald. Kramer, chairman; Ald. Halleran vice-chairman; Ald. Sinton, Ald. Martin, Ald. Gillespie.,
Meets on Thursdays at 4 p.m.

Assessment—Mayor Williams, chairman; Ald. Peverett, Ald. Martin.

Second Engineer—A. Sweet.

Lineman—Robert Crosbie.
Meter Inspector—M. W. Reesor.
Inspector—F. W. Brimacombe.
Caretaker of Cemetery—J. Kusch.
Caretaker City Hall—A Stewart.
Market Clerk—Jas. Williams.
Librarian— J. R. C. Honeyman.

Electric Lighting System.

The power house built of brick and concrete is situated at the corner of Dewdney and Broad Streets N.E. of C. P. R. depot. Plant consists of two Westinghouse generators, one 300 k.w. and the other 100 k.w.;one Corliss engine of 475 h.p. and Ideal 150 h.p. respectively; power furnished by four Babcock water tube boilers with capacity sufficient to operate Electric Lighting plant and the fire pump at full capacity. There are 71 arc lamps of 1200 c.p. for street lighting. The domestic incandescent lights are mostly on meter, there being about 1300 private services with 1196 on meter. There are 75 miles of line wire for domestic services and about 15 miles of arc wire. A flat rate for 4-16 c.p. lamps or under at 75c each per month. Over that number are on meter, rate 9c per kilowat hour

Water Works System.

The waterworks system is owned and operated by the city. The supply is obtained from springs on Boggy Creek, a distance of about eight miles from the city, where a dam and reservoir has been constructed with a capacity of over 100,000,000 gallons and a gravitation of 85 feet from the reservoir to the power house basin.

There are two compensating basins, about 3 miles from the reservoir the first having a capacity of 65,000 gallons and the second a capacity of 1,000,000 gallons, and two storage basins at the Power House having a capacity of 150,000 gallons, and 500,000 gallons respectively. The fall to the first basin is 1 foot in 1,000 feet and to the second 4 feet in 1,000 feet.

In the laying of the pipe line underground springs were struck about half a mile from the reservoir and these supply through a filtering bed water as pure as air—all that the city requires at present without the necessity of drawing upon the reservoir. Other springs are being tapped with a view to increasing the supply in this manner. In case of fire a steam pump is kept at the power house to increase the pressure

The total capital expenditure in connection with the waterworks system and extensions to December 31, 1908 was $425,000.

Fire Department.

Central Fire Station—Hamilton St. between 11th and 12th aves Telephone 23.
W. A. White, chief.
N. B. McInnis, assistant chief.
H. A. Ryan, first lieutenant.
C. C. Stewart, 2nd. lieutenant.

The Regina Fire Department consists of one Chief of Department, one Assistant Chief, one Secretary-Treasurer, one Captain, two Lieutenants, two Engineers, thirty firemen, making a total of thirty-six officers and men.

There are at present in the Department the following apparatus.
1 Chemical.
2 Hose Wagons.
2 Hose Reels.
1 Steam Fire Engine.
1 Hook and Ladder Truck.
5,600 feet of Hose.
2 Teams Trained Horses.
2 Sets Quick Hitch Harness.

Financial Statement.

City of Regina for the year 1908, has Assets, $3,223,948.12; Liabilities, $1,346,515.17. Surplus over Liabilities, $1,877,468.95.

The Caxton Press

Specialists in Fine Art Printing

¶ You are no doubt aware of the fact that judiciously placed advertising pays. Do you know that your letterheads and general office stationery is one of the best advertising mediums you can have?

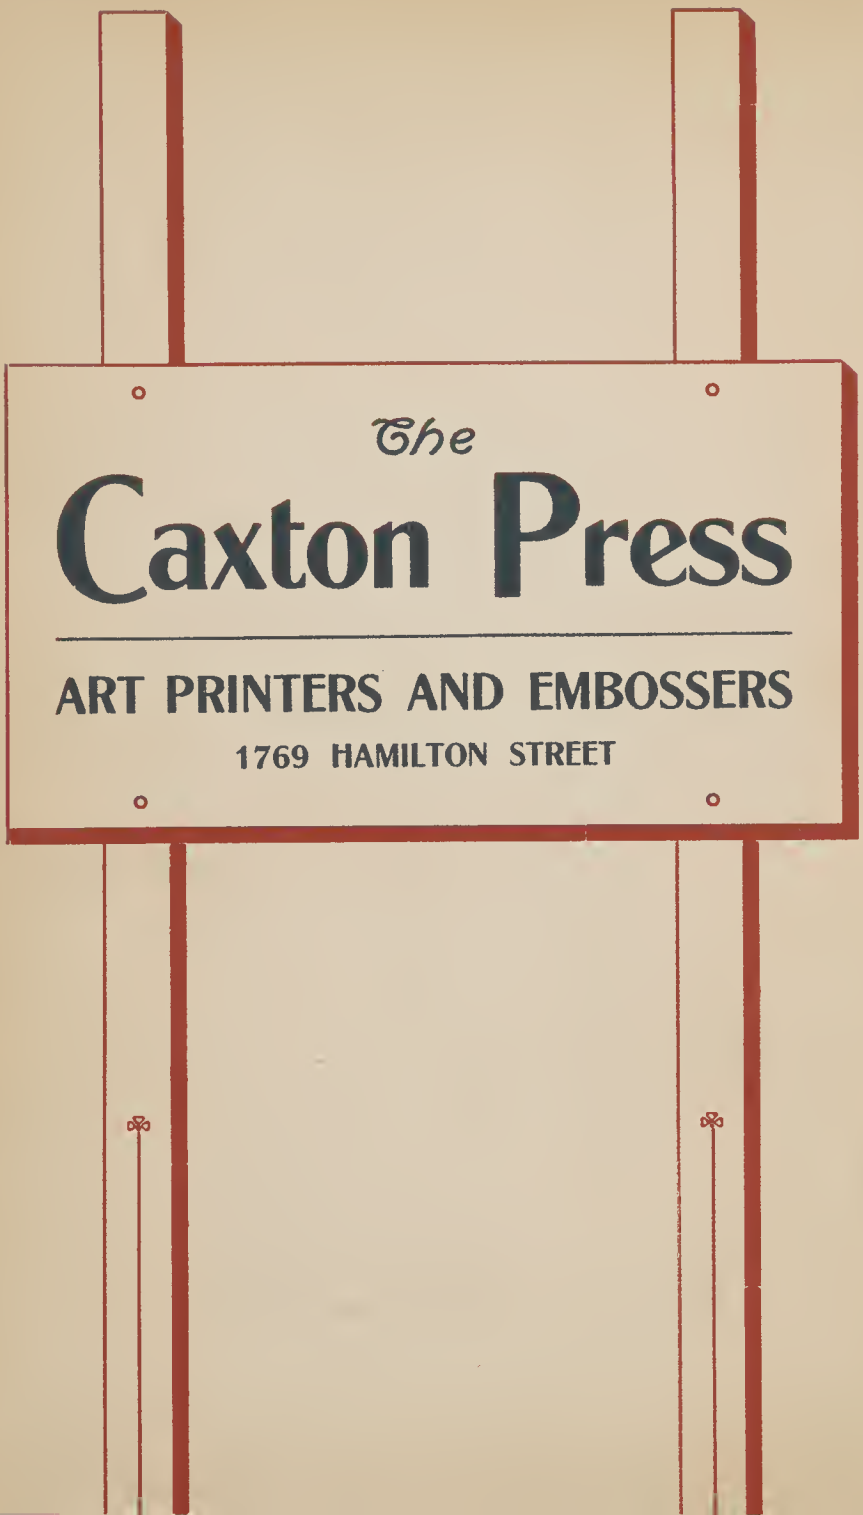

¶ The most effectively written appeal you can make to your customers for patronage will fail in ts object if written on paper which looks like wrapping paper or has the characteristics of blotting paper.

¶ We carry a line of Bond and Wove papers that is second to none in the province. We usc brains in the selection of types and ink, with the result that each and evcry job we turn out bears the impress of character and individuality.

¶ We have every facility for handling all kinds of commercial work, legal forms, periodicals, etc. It costs you no more for good work than it does for poor work, but the difference between the effectiveness of the two represents dollars and cents to you. See us about your printed matter.
